Qingle Liu

lql24@mails.tsinghua.edu.cn | +86 18561983501
Department of Computer Science and Technology, Tsinghua University, Beijing, China

Education

Tsinghua University Beijing, China
B.Eng. in CS & B.A. in Economics and Finance (Double Major) *Sep. 2024 – Jun. 2028 (Expected)*

- **GPA:** 3.97 / 4.0 **Rank:** 1 / 33
- **Core Coursework:**

Math & Science	Calculus (A/A−), Linear Algebra (A), Advanced Linear Algebra (A+), Probability & Mathematical Statistics (A−), Discrete Mathematics (A−), University Physics (A+/A)
Software	Fundamentals of Programming (A), Object-Oriented Programming (A), Programming Training (A), Data Structures (A−), Computer Graphics (A), Software Engineering (A+)
AI	Intro to Artificial Intelligence (A), Intro to Machine Learning (A), Deep Learning & Financial Data Analysis (A+)
Hardware	Digital Logic Circuits (A), Digital Logic Lab (A+), Intro to Computer Systems (A)

Honors & Awards

National Scholarship (top national undergraduate award in China)	2025
Merit Student, Tsinghua University	2026
Five-Star Zijing Volunteer, Tsinghua University	2026
Outstanding CYL Member, Tsinghua University	2025
AEON Scholarship	2025
CSP-J 2019, Provincial First Prize	2019

Research Experience

MMLab, CCDS, Nanyang Technological University Singapore
Undergraduate Researcher, advised by Prof. Xingang Pan *Jun. 2026 – Present*

- **DeCoPrune** (**co-first author**; arXiv:2609.39096): Introduced training-free KV-cache pruning for autoregressive video diffusion via denoising consistency, preserving long-range information with a 4.14× continuation-generation speedup over FullKV.
- **Ongoing:** Research on unified video understanding and generation.

The Graphics and Geometric Computing Lab, Dept. of CST, Tsinghua University Beijing, China
Undergraduate Researcher, advised by Academician Shimin Hu *Aug. 2025 – Present*

- Conducting research on multimodal video understanding, generalized keyframe extraction, and GUI agents.
- *Bridging VideoQA and Video-Guided Agentic Tasks via Generalized Keyframe Extraction* (2nd author, **ECCV 2026 accepted**; arXiv:2606.29445).
- *GUICrafter: Weakly-Supervised GUI Agent Leveraging Massive Unannotated Screenshots* (4th author; arXiv:2606.29705).

Industry Experience

Einsia.AI Beijing, China
Research Engineer *Mar. 2026 – Present*

- **Lab Team – Frontier-Eng:** Contributed to a benchmark for self-evolving AI agents on real-world engineering optimization tasks (**NeurIPS 2026 accepted**; arXiv:2604.12290).
- **Lab Team – Scalable Behaviour Cloning:** Worked on browser-agent skill distillation, converting human interaction traces into reusable natural-language skills. Paper: arXiv:2606.32014.

Leadership & Activities

Vice Chair, Student Association for Science & Technology, Dept. of CS	2026 – Present
Team Leader, Peer Tutoring Workshop, Dept. of CS	2026 – Present
Class President, Dept. of CS	2025 – 2026
Team Leader, Summer Social Practice Trip to Wuxi ("Smart Wuxi")	Summer 2025
Staff Member, Organization & Volunteer Div., Dept. of CS	2025 – 2026
Completed **200+ hours** of community volunteer service	2024 – 2026

Skills

Programming: Python, C++
Tools: Codex/Claude Code, Adobe Creative Suite, Microsoft Office
Languages: Mandarin (native), English (CET-4: 609), Japanese (JLPT N2)
Interests: Travel, Piano, Calligraphy, Basketball
